

Financial assistance available through Gift Certificate program:

Inglemoor Music Boosters has created this spirit gear opportunity to promote community across the entire music department. Because this is not a fundraising project, prices have been set with only a minimal upcharge.

Our hope is that every student who would like an item of music spirit gear is able to get one. In order to make that happen, families have been given the option to donate extra funds (over the cost of their own purchase) to help pay for another student's music spirit gear. If you are in the position to do that, we are immensely grateful.

If you are a student or family who cannot cover the expense of music spirit gear, and would like your student to have an item, please enter your order but do not pay. Instead click the Wish Request button during checkout.

We are operating completely on the honor system for folks to request a sponsored item, and your privacy will be respected.

We will do everything we can to grant your wish so that every student who wants to can participate in this experience.
